

NEW PRODUCT RELEASE

LHL180 SERIES 7" LED HEADLAMPS

Description

The LHL180 series features cutting edge LED technology and advanced optics to provide a fully functional LED headlight with ADR compliant high beam, low beam and parking light for right hand driving applications. Designed for heavy duty and high reliability installations, the LHL180 emits superior light output with ultra high clarity enhancing visibility while on the road. Using enhanced beam technology, the LHL180 will perform to the standards of conventional lighting with greater reliability while drawing less current from vehicle systems. Specially made for direct replacement the LHL180 will seamlessly fit most retrofit applications with ease. Suited to OE and commercial applications.

Features & Benefits

- Cutting edge LEDs and optics
- Approved LED High and LED Low Beam with LED Park
- Built for heavy duty use
- Retro fits all conventional 7" Head lamps
- Fully ADR Compliant

Specifications

Functions	LED High Beam / LED Low Beam / Led Park
Voltage	9-33V DC Varivolt®
Wattage	High Beam 28W Low Beam 25W Park 1.5W
Mounting	Headlamp Standard
Lens Material	Polycarbonate
Environmental Protection	IP67
Cable Length	0.3M Connector Optional

Applications

- Trucks • Buses and Coaches • RV

Compliance

ADR Compliant Functions	Head lamps 46/00, Front Position 49/00
