

BE245 SERIES AMBER MINIBARS

Features:

- Slimline Design (37mm Profile)
- Powerful 360° Warning Output
- 12 Selectable Flash Patterns
- Durable & Weatherproof
- Versatile Mounting Options

Description:

The Whitevision BE245 Mini Lightbar delivers powerful 360° LED warning performance in a sleek, compact, and durable design. Standing just 37mm high, this slimline, low-profile lightbar provides exceptional visibility with SAE Class 1 brightness — ensuring maximum safety awareness from a minimal footprint. Featuring 12 selectable flash patterns, the BE245 adapts easily to various operational requirements, making it ideal for civil, construction, and heavy-duty vehicle applications.

Engineered for reliability, the BE245 is fully sealed to IP67, offering superior protection against dust and water ingress. Its ultra-tough polycarbonate lens and vibration-resistant construction make it perfectly suited for demanding environments. With a 10–30V multi-voltage range and available stud, magnetic, or bracket mounting options, the BE245 Mini Lightbar combines cutting-edge LED performance with versatile installation and long-lasting durability.

Parts List

BE245-ST	Mini Amber Lightbar 245mm 10-30V Stud Mount
BE245-MG	Mini Amber Lightbar 245mm 10-30V Magnetic Mount
BE-245-BR	Mini Amber Lightbar 245mm 10-30V Bracket Mount

Specifications:

Voltage:	9-33V Varivolt®
Functions:	12 Flash Patterns Single C1 / Combo Single / Combo Double / Strobe Triple / Rotating Rotating / Quint Strobe / Cruise
Lens:	Polycarbonate
Housing:	Polycarbonate
Mounting:	Stud Mount Magnetic Mount Bracket Mount
Environmental:	IP67
Compliance:	Class 1 SAE CISPR 25 Class 3 EMC R10
