

PRODUCT DATA SHEET HEADLIGHT GLOBE LED CONVERSION KIT

Features:

- Shock & vibration resistant
- Aviation grade aluminium heat sink
- Powerful 4,000 lumen per globe
- 360° beam angle

Description:

The LHL-H series LED replacement headlight globes are designed for direct replacement of existing incandescent headlight globes. The LHL-H series is for use on all commercial and private vehicles. The LHL-H series feature cutting edge LED technology, fanless design, and comes complete with plug connector. Supplied as a twin pack in a colour box with foam insert. A simple fitting makes them perfect for upgrading existing incandescent versions to LED.
