

PRODUCT DATA SHEET RAYZER™ DOUBLE ROW LED LIGHT BAR

RETAIL READY PACKAGING

Features:

- Multifunctional
- Ultra Powerful combination beam
- Free form reflector technology for consistent light
- Heavy duty commercial quality
- ECE Approved

Description:

Rayzer™ Pro Series double row LED light bars use the latest free form optics to provide Superior lighting performance with a visually appealing style.

The Rayzer™ Pro Series' ultra-bright light output using Broadbeam technology, achieves a long-reaching and wide consistent beam ideal for any situation where maximum illumination is required.

The Rayzer™ series features an integrated position / DRL light and amber warning function for commercial applications. Included is also a comprehensive stainless steel mounting kit. Constructed from high grade anodised aluminium, sealed to IP67 and fitted with a virtually indestructible polycarbonate lens Rayzer™ Series LED bars are truly built for the long haul.
