

PRODUCT DATA SHEET CRL600 95MM SINGLE LAMP INSERT SERIES

Features:

- Crystal optic lens for common visual appearance across all model functions
- Dimensional profile suits many applications & retrofit situations
- Can create combination lamps with modupods
- Fully ADR compliant

Description:

The 95 series LED modules feature crystal optics lens design and common dimensional profile enabling the lamp to suit a wide variety of applications. This lamp can be used with modupods to create a custom combination solution or individually as flush mount with a surface mount option using the single modupod plinth. The dimensions of the 95 series also allows for retrofit upgrade or replacement of similar lamps. Suited to OE and heavy duty applications. Connector options also available.
