

## PRODUCT DATA SHEET

### UNDER BONNET LED EMERGENCY WORK LIGHT

#### Features:

- Rechargeable battery lasting 5.5 hours
- Integrated USB-C/A 5000mAh power bank
- SOS strobe mode
- Adjustable Brightness & 360° Swivel
- Tough Reliable Design

#### Description:

Light up every task with confidence using the Whitevision Under Bonnet LED Emergency Work Light. This powerful, portable lighting solution is built for professionals and adventurers alike.

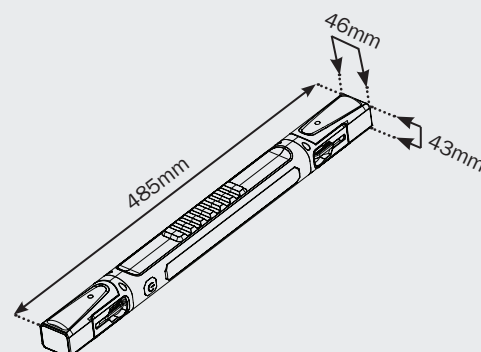

Delivering an impressive 1500 lumens of bright, even illumination, this versatile light is powered by a rechargeable 5000mAh lithium battery that provides up to 5.5 hours of runtime. It also doubles as a USB-C/A power bank, allowing you to conveniently charge devices on the go.

With high and low brightness modes and a red SOS strobe for emergency signalling, this light is ready for any situation. The 360° swivel adjustment and strong magnetic base lets you position it hands-free on metal surfaces, making it easy to attach to bonnets, toolboxes, or workshop equipment.

Engineered with a rugged, durable design, the Under Bonnet LED Emergency Work Light is ideal for mechanical inspections, emergency repairs, camping, 4WD use, fishing trips, or any outdoor and worksite application where reliable lighting is essential.
